

# RAGGING

## French

In French we will be learning different questions & answers. We'll also look at phrase of celebration and greetings, as well as some French towns.

## PE

In PE will spend time doing athletics, swimming and outdoor sports.

## Maths

While we continue practising various methods of addition, subtraction, multiplication and division, we will also be looking at conversions of different measures; fractions and decimals; properties of 3D shapes; time; money and Roman numerals.

## RE

Our RE this term will be looking at temptation and making choices, along with water as a symbol.

## PSHE

We will be spending time looking at relationships. We will also be focusing on changes to help us prepare for the next year.

## Music

We will be composing music related to the environment.

## Art

For Art, we will study landscapes and use this to draw our own.

## Science

We will be learning about states of matter. This topic will investigate solids, liquids and gases and what this means. We will also explore reversible and irreversible changes.

## English

This term our writing will include traditional poems, explanation texts based on the water cycle, traditional stories, shape poetry and adverts.

## Geography

Our topic this term will be rivers. We will be studying how they are formed and their features. We will also explore how they contribute to and affect our environment.

## Computing

This term's Computing will be researching using the internet. We will also start coding using Scratch.
